Technical Skills

- Languages :** Java
- Web Development :** HTML, CSS, JavaScript, MERN Stack (Learning)
- Database :** MySQL
- Version Control :** Git & GitHub

Soft Skills : Teamwork, Problem-Solving, Communication, Time Management.

PROJECTS

MERN Authentication App - [Github](#) | [Live demo](#)

A full-stack user authentication system built with React, Node.js, Express, and MongoDB Atlas. The app supports user registration, login, logout, protected routes, and toast notifications. JWT is used for authentication and stored in localStorage for persistent login.

React Weather App - [Github](#) | [Live demo](#)

A full-stack user authentication system built with React, Node.js, Express, and MongoDB Atlas. The app supports user registration, login, logout, protected routes, and toast notifications. JWT is used for authentication and stored in localStorage for persistent login.

Social Media App (MERN Stack – Final Year Academic Project, In Progress)

Currently developing a full-featured social media platform in a team using MongoDB, Express.js, React, and Node.js. Planned features include user authentication, post creation (text/images), likes, comments, follow/unfollow system, and a fully responsive design. Focused on clean UI and scalable backend structure.
